Empirical Strategies to Transform Schools & Education

1. Teachers & Directors performing with excellence.
2. Engaged parents & families in the education process.
3. Institutional leaders pressing constructively to elevate standards.
4. Communities ready to invest in the schools.
5. Business leaders prepared to support directly the schools.
6. Students willing to learn.
7. Availability of intelligent and fun technologies.
8. Solid, agile and quick administrative structure.
9. Profound educational philosophy.
10. Robust physical infrastructure.
