

## Have you Made the Rally for Recovery Commitment Yet?

# #RallyForRecovery COMMITMENT

**Join the [Rally for Recovery](#).** We're asking employers to help pull our country together against the pandemic. This includes considering actions in three key areas:

1. Encourage mask wearing and social distancing in the workplace.
2. Reduce barriers to employee vaccinations.
3. Communicate with your customers and communities about how to stop the spread of the virus.

**Spread the word:** We created a [social media toolkit](#) with graphics and sample social posts to help you encourage other employers to Rally for Recovery.

**Why it matters:** Every company and organization can continue doing their part to help protect employees, customers, and communities, so that together we can reignite the economy and defeat the pandemic.
