

Jenny Stentz
Vice President and General Manager,
Energy Solutions North America
Johnson Controls, Inc.

Jenny graduated from Louisiana State University with a bachelor degree in Electrical Engineering and started with Johnson Controls as an engineer. She was actively involved with the Society of Women Engineers and leveraged the Leadership LSU program to get actively involved in several local charities.

Jenny moved into her first management role in 2004 with JCI as a Sales Manager in the Energy Solutions organization across the Southern Region of the United States. During that time Jenny participated in the nighttime MBA program at Tulane University which she graduated with a Masters in Finance and Management in 2005.

In 2006 Jenny moved to Milwaukee, WI to take on the challenge of Director of Healthcare Solutions where she led the National Healthcare Business across JCI and was actively involved in both American College of Healthcare Executives (ACHE) and American Society of Healthcare Engineers (ASHE). She graduated from the JCI Extreme Leadership Global Development program in 2008.

In 2009, Jenny took on the challenge to grow the Service Organization top line as the Vice President of Sales for North America Services. This was a great opportunity to work within another Business Unit inside Building Efficiency. In 2011, Jenny moved to Atlanta as the Regional General Manager for the Southeast Region. She lead the Truck Based Operations and Maintenance business across 7 states with the largest union based HVAC technician team. In 2013, Jenny joined the North American Direct Leadership Team as the Vice President and General Manager Energy Solutions. Jenny is a proud Mother of two, and a passionate coach and leader.
