

# PUERTO RICO CONFERENCE

2012 | Revitalizing Innovation

**Mr. Jossen Rossi**  
Chairman, AIREKO

Chairman of the Board and CEO of Aireko Enterprises  
Officer of AeroMetalica Corporation

BSCE Cornell University 1980, MBA University of Virginia 1989.

Mr. Rossi is Chairman and majority owner of Aireko, a multi-enterprise construction group in business in Puerto Rico and the Caribbean since 1963. Jossen has managed civil, institutional and industrial jobs for Aireko since 1980, and is particularly experienced in Fast-track Turnkey Building Construction with Guaranteed Max Price. He also directed the development of Aireko's computerized estimating, cost control, and management systems. Today he chairs the board of three construction services companies in Puerto Rico, and one in Florida. Jossen is also an official of a metal products manufacturer in the industry and has been actively involved as official or director in many community and industry associations locally and abroad such as the Puerto Rico Manufacturer Association, the Aireko Foundation, the Associated General Contractors Puerto Rico chapter, the Construction Cluster of Puerto Rico, and the Young Presidents Organization Puerto Rico chapter. Of these he has chaired all including, the Puerto Rico Manufacturers Association currently, where he served as vice president and director previously as well.
