

**Maria Fernanda Levis-Peralta MPH, MPA,
PCMH, CCE, CFRE,
CEO,IMPACTIVO, LLC.**

Mrs. Levis is a consultant for health centers, hospitals, pharmaceuticals, insurance companies, non-profits and governments in New York, Washington DC and Puerto Rico on issues related to health systems, quality, community organizing, patient-centered approaches, health policy and financing. Her former experience includes the pioneer Accountable Care Organization Atrius Health, where she was responsible for documenting their practice transformation process, a Blue Cross Blue Shield affiliate where she designed their clinical, financial and operational quality and performance improvement data systems and multiple primary health centers to improve their quality, compliance and net income. She has been instrumental in the attainment of millions in federal grants and has designed and implemented community health needs assessment and strategic planning methodologies used to align the organizational resources to improve patient health outcomes, empower work teams and improve financial success. She has a Masters Degree's in Public Administration and a Master of Public Health from Harvard University, is a NCQA Patient Centered Medical Home Certified Content Expert and a Robert Wood Johnson Foundation Fellow.
